	Vapori di sodio bassa pressione		Argomenti installati

LEGENDA

The map displays the urban layout of Magenta, with streets and buildings outlined in grey. Overlaid on this is a network of lines representing street lighting. Red lines form a dense grid in the central urban area, while blue lines are more scattered, often following the edges of the urban area or specific streets. The map also shows topographical features like hills and valleys, indicated by contour lines and shading. A north arrow is located in the top right corner.
